Hiram College's Center for Literature and Medicine Presents

A Film Screening of

FIXED:
The Science/Fiction of Human Enhancement

Followed by a Discussion with the Film's Director,
Regan Brashear

A haunting, subtle, urgent documentary, *FIXED* questions commonly held beliefs about disability and normalcy by exploring technologies that promise to change our bodies and mind forever. Told primarily through the perspectives of five people with disabilities: a scientist, journalist, disability justice educator, bionics engineer and exoskeleton test pilot, *FIXED* takes a close look at the implications of emerging human enhancement technologies for the future of humanity.

Wednesday, April 30, 2014
Kennedy Center Ballroom
Hiram College
6:30 p.m.
