Short Writing Assignment #1: Book Critique

Due Thursday Jan. 31 by 10 pm
[Submit to Sakai drop box]

Format: Word document (double spaced)

Length: no more than 1 page

Please write a critique of the book "The Particle Odyssey" by Close, Marten, and Sutton. This critique should include a very brief description of the book itself, but should primarily focus on what you liked and disliked about the text. You should also discuss how useful you have found the book in the context of this course and whether or not this book has increased your interest in, or curiosity about particles, physics, or science in general.
