Short Writing Assignment #3: Book or Video Critique

Due Thursday April 3 by 10 pm
[Submit to Sakai drop box]

Format: Word document (double spaced)

Length: no more than 1 page

Please write a critique of Brian Greene's presentation of science in either his book "The Fabric of the Cosmos" or in the video "The Elegant Universe". You need to give specific details about the different ways that Greene attempts to make technical material accessible to a general audience. You should also comment on how Greene attempts to make this material both interesting and entertaining. Finally, you should give your personal opinion about the effectiveness of Greene's presentation.
