

Study Smarter, Not Harder!

If you like to...

Try to...

<p>Read your textbook and class notes</p>	<ul style="list-style-type: none"> • Summarize concepts aloud or in writing • Describe connections between main ideas, names, dates, vocabulary, and other concepts and ideas • Write practice test questions and quiz yourself • Teach concepts to someone else • Focus attention on pictures, graphs, and graphics and practice explaining the concepts they illustrate without looking
<p>Create a concept map or comparison chart to map out ideas, information, and/or concepts</p>	<p>Practice talking through concepts and their relationship to one another without looking</p>
<p>Use an existing or self-created study guide to review concepts and ideas</p>	<p>Make up practice test questions from the study guide and quiz yourself; Answer questions, verify answers, and relearn information if you answer incorrectly; Did you get it right? Would you receive full credit?</p>
<p>Make flashcards for key concepts, names, formulas, dates, etc.</p>	<p>Practice your flashcards until you know the information in both directions (Given side A, you can recite side B, and vice versa)</p>
