Social Work (3+2)

PRE-PROFESSIONAL CONCENTRATIONS
Pre-Dentistry
Pre-Law
Pre-Medical Studies
Pre-Physician Assistant
Pre-Veterinary Medicine
THE TECH: Bring to life the possibilities of group work, individual reflection, explorations in and out of the classroom, in-person and virtual journeys near and far, and communication with classmates and colleagues. Through Tech and Trek’s focus on mindful technology, you will learn how to creatively and critically use technology to enhance your learning.

Upon your start at Hiram, you’ll receive the following to hone your academic, interpersonal, and reflective skills:

iPad  |  Apple Pencil  |  Keyboard Bundle

THE TREK: One of Hiram’s greatest treasures is the James H. Barrow Biological Field Station. With the Tech and Trek program, students are encouraged to unplug from technology and lace up their hiking boots to explore the 550-acre Field Station and the nearby hike and bike trails.

The Field Station is an active research and educational facility that enhances the science and environmental studies programs to deliver enrichment and inspiration for students in all majors. It’s comprised of research facilities, a wildlife rehabilitation center, grasslands, and forests.

Up for a longer trek? Hiram students are also able to check out the Northwoods Field Station, located in Michigan’s Upper Peninsula. The Field Station is in the heart of the Hiawatha National Forest and is just minutes away from Lake Superior. There, students learn to live off of the grid in harmony with nature using a low-consumption lifestyle.

No matter your major, all Hiram students are encouraged to embrace, celebrate, and care for the beautiful environments that surround the campus and beyond.
INNOVATIVE APPROACHES

Hiram gives you the tools to succeed in college, in building your aspiring career, and in the personal life you dream of leading.

12+3 SEMESTER STRUCTURE
The Hiram Plan, our unique semester structure, is designed to give you the opportunity to gain valuable, intensive real-world experiences. During the first 12 weeks of the semester, you’ll take a full course load of three or four classes. For the final three weeks, you’ll focus on a single, intensive course in the classroom, in the field, or abroad.

EXPERIENTIAL LEARNING
Internships, research, and global understanding top the list of experiences employers desire for college graduates. That’s why all Hiram students are required to do one of the following as part of Hiram Connect:

- Complete a paid internship in an area of interest to you.
- Go on a study away or study abroad trip.
- Conduct independent research with a faculty member.
It was during my freshman year that I realized what I thought I wanted to major in wasn’t the right fit for me. I started off as an education teacher licensure major, but soon discovered that I didn’t want to teach in a traditional classroom. After closely working with my faculty advisor, I was able to change my major to educational studies with a concentration in higher education, and I’m able to apply the skills that I learn in the classroom to paid internships with the College’s admission and marketing offices.
C’YONA EDWARDS

Biology Major | Color Guard | Veticus Club

“I knew coming to Hiram that the small class sizes and collaborative learning environment would help me receive the well-rounded education that I was looking for. The excellence in teaching and support of my professors not only helped me land my first internship as a veterinary assistant, but is preparing me for graduate school and a career as a veterinary ophthalmologist. Another added bonus for me is the opportunity to get involved across campus in things that I love, like being a member of the color guard, a writing tutor, and a student technician for the IT department.”
What is public leadership?
Find out at the Garfield Institute. You will gain an understanding of foreign and domestic public policy, the American presidents, and the issues that shared their presidencies. Attend seminars, events, lectures by guest speakers, small group discussions, and study tours. Become part of the next generation of public servants and educators on relevant political issues.

ENTREPRENEURSHIP’S HIGH PERFORMANCE PROGRAM
Get exposed to real companies with authentic issues. Learn how to analyze problems, decide on a course of action, and become a problem solver. You will develop effective communication skills, a strong work ethic, presentation skills, and the ability to work in a team. Be prepared to navigate the tough world of business and start a new career at a participating business.

ECLECTIC SCHOLARS HONORS PROGRAM
Reach for new heights as an Eclectic Scholar; grow as a leader and prepare for the next steps in your career. Enrich yourself by holding a leadership position in a club or organization, working with a social service agency, participating in research, and more! As an Eclectic Scholar you will have priority registration, specific honors courses, and a housing learning community.
Being both an engaged student and a dedicated athlete is possible at Hiram. As a student-athlete, you’ll have the opportunity to learn and compete, with regular access to outstanding coaching, facilities and equipment, and academic support.
