Hiram Guarantee

Have clarity while planning for college with the Hiram Guarantee.

Take the guesswork out of budgeting for college.

Hiram provides peace of mind with the tuition guarantee, which fixes the tuition rate for each incoming class cohort, making it the same for four years.

Know your timeline up front.

Graduate on time and in alignment with your personal and professional goals. It's quite simple—declare your major, stay on track with your courses, and graduate in four years.

hiram guarantee

Discover **your** passion.

HIRAM COLLEGE

Explore **your** possibilities.

At Hiram College, there are no limits to the impact you can make.

HIRAM COLLEGE

CTCL
COLLEGES THAT CHANGE LIVES

A proud member of the **Colleges That Change Lives** (CTCL) non-profit organization—and one of the colleges featured in the acclaimed book by the same name—Hiram is committed to helping you find the college that is **right for you**.

Hiram College is for you: your **big ideas**, your **positive energy**, your **motivation** to learn and share, your **excitement**. There are no limits to the impact you can make at Hiram. Whether it be in academics, athletics, or campus involvement, you have a place here. From the moment you arrive on campus, Hiram will help you explore your possibilities and **become the best** student you can be.

Innovative approaches.

Hiram gives you the tools to succeed in college, in building your aspiring career, and in the personal life you dream of leading.

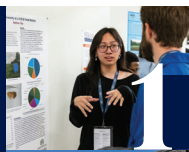

12+3 Semester Structure

The Hiram Plan, our unique semester structure, is designed to give you the opportunity to gain valuable, intensive, real-world experiences. During the first 12 weeks of the semester, you'll take a full course load of three or four classes. For the final three weeks, you'll focus on a single, intensive course – in the classroom, in the field, or abroad.

Experiential Learning

Internships, research, and global understanding top the list of experiences employers desire for college graduates. That's why all Hiram students are required to do one of the following:

1 Conduct independent research with professors.

2 Go on a study away or study abroad trip.

3 Complete a paid internship in an area of interest to you.

Student Academic Services

To help you along your educational journey is Hiram's Office of Student Academic Services. From academic support through tutoring to course advising, student development, academic technology assistance, disability services, a testing center and more, you can get the tools and resources you need to manage the demands of college life both inside and outside of the classroom.

Ring the bell.

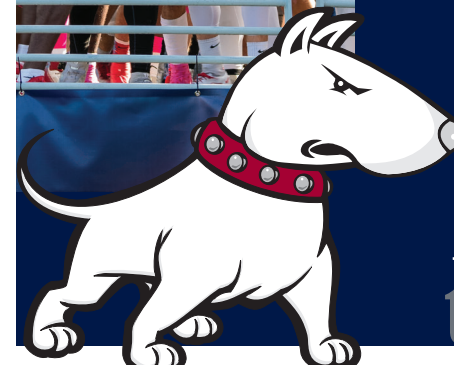

Being both an engaged student and a dedicated athlete is possible at Hiram. As a student-athlete, you'll have the opportunity to learn and compete, with regular access to outstanding coaching, facilities and equipment, and academic support. Check out our Division III sports:

Men's Sports

Wrestling

terrier athletics

Hiram's Field Stations.

Hiram features two biological field stations, both of which are active research and educational facilities that deliver enrichment and inspiration for students in all majors.

James H. Barrow Biological Field Station

The James H. Barrow Biological Field Station is a 500-plus-acre active research and educational facility only three miles from Hiram's main campus. The Field Station not only enhances the biology and environmental studies program but delivers enrichment and inspiration for students in all majors through work, research, and internships.

Check out some of the ways you can get involved:

- Animal care and husbandry
- Scientific research
- Education and outreach
- Sustainability
- Ecomanagement and land stewardship

Northwoods Field Station

Located in Michigan's Upper Peninsula, the Northwoods Field Station was built by a group of Hiram students and faculty in the 1970s. It's in the heart of the Hiawatha National Forest minutes from Lake Superior!

When visiting Northwoods, students learn to live off the grid in harmony with nature using a low-consumption lifestyle. This means using water from a hand pump, electricity through solar power, and hand-chopping wood for fires – all which make Northwoods unique.
